

65x60x45mm Socket 7/370 CPU Cooler Fan w/ Heatsink & TX3 connector

StarTech ID: FAN370PRO

Measuring 65x60x45mm, this Socket 7/370 CPU Cooler/Fan is a combination heatsink and fan designed to cool high performance CPUs.

The Socket 7/370 CPU Cooler offers an extra-large heatsink combined with a quiet running 6x2 cm brushless ball bearing DC motor. The fan features a high-efficiency blade design capable of moving 21.46 CFM, providing enough cooling capacity for Pentium III and Celeron CPUs up to 1.4 GHz.

The Socket 7/370 CPU Cooler is powered through a TX3 (3-pin) connection to the computer power supply, and is a suitable cooling solution for Intel Pentium III and Celeron CPUs up to 1.4 GHz and AMD K6 processors at any speed.

Please note: to power the Socket 7/370 CPU cooler using an LP4 (4-pin) connection to the power supply, please see our [TX3 to 2x LP4 Power Y Splitter Cable](#) (CPUFANADAPT).

Applications

- Replace a noisy/failing Socket 370/7/A CPU cooler
- Compatible with Socket 370/7 Intel Pentium III and Celeron CPUs up to 1.4 GHz and AMD K6 processors
- Compatible with Socket A AMD Duron processors up to 1.2 GHz

Features

- 60mm ball bearing cooling fan
- Aluminum heatsink construction
- Standard 3-pin Molex fan connector

Technical Specifications

Warranty	2 Years
Fans	1 - 58 mm
Fan Dimensions	58 x 58 x 20mm (2.3 x 2.3 x 0.7in)
Fan Bearing Type	Ball Bearing
Heatsink Type	Aluminum
Heatsink Dimensions	58 x 63 x 20mm (2.3 x 2.5 x 0.78in)
Connector Type(s)	1 - Molex Fan (3 pin; TX3) Female
Fan RPM	4000
Air Flow Rate	20.2 CFM
Noise Level	31 dBA
Color	Black
Enclosure Type	Aluminum and Plastic
Product Weight	4.8 oz [136 g]
Input Voltage	12 DC
Shipping (Package) Weight	0.4 lb [0.2 kg]
Included in Package	1 - Socket 7/370 CPU Cooler
Included in Package	1 - Packet of Thermal Compound
