NETWORKING SOLUTIONS

Networking Products by Cables To Go™ support the rigorous demands of enterprise applications. From 10Gb Aqua Fibre and LSZH Fibre to Cat6 and Cat5E Cables, Cables To Go has the products to keep up with your ever-increasing need for bandwidth.

Our solutions include both standard and custom copper and fibre cables all available for quick delivery and backed by customer support unparalleled in the marketplace.

If you are looking for a cable in a specific colour or length, give us a call. Our experienced sales team can help create the exact solution for your application.

Duplex 62.5/125 Multimode Fibre Patch Cables

62.5/125 micron Multimode duplex fibre patch cable

Multimode Fibre Patch Cables from Cables To Go are designed to handle network speeds up to 1000Mbps and can be used in all Multimode applications. The patented Injection Moulding Process gives each connection greater durability in resisting pulls and strains. Each cable is 100% optically inspected and tested for insertion loss before you receive it.

• The pull-proof jacket design surrounds the 62.5/125 Multimode fibre
• 100% optically inspected and tested for insertion loss
• Moulded form construction
• Immune to electrical interference
• Type: Multimode, duplex

85000

LSZH Duplex 62.5/125 Multimode Fibre Patch Cables

High speed fibre cables that provide protection from toxic and corrosive gasses

Low-Smoke Zero-Halogen (LSZH) Fibre Patch Cables from Cables To Go are designed to lessen the emissions of smoke and halogens when the cable is exposed to extreme temperatures. These fibre patch cables are perfect for fast Ethernet, Fibre Channel, ATM and Gigabit Ethernet applications. Use to connect fibre optic equipment to fibre optic cross-connects, interconnects and information outlets. Each cable is individually 100% optically inspected and tested for insertion loss and quality. All cables meet or exceed industry specifications.

• Low-Smoke Zero-Halogen jackets provide protection from toxic and corrosive gasses
• Fully compatible with Multimode fibre applications
• A cost-effective solution that provides lower loss and higher bandwidth supporting longer distances
• Perfect for use in Gigabit Ethernet applications
• Lifetime warranty against defects of materials and workmanship
• Buffer OD: 900 µm
• Jacket OD: 3.0 mm
• Jacket colour: Orange
• Attenuation @850 nm: 3.75 dB/km

• Attenuation @1310 nm: 1.5 dB/km
• Min. bandwidth @850 nm: 160 kHz/km
• Min. bandwidth @1310 nm: 500 kHz/km
• Maximum tensile load: 100 N/cm
• Loaded min. bend radius: 5cm
• Unloaded min. bend radius: 3cm
• Crush resistance: 750 N/cm
• Impact resistance: 1000 cycles
• Flex resistance: 5000 cycles

NETWORKING SOLUTIONS

Duplex 50/125 Multimode Fibre Patch Cables
For your high-speed Multimode fibre applications

Get more bandwidth and higher transmission rates over longer distances with 50/125 Multimode fibre cables from Cables To Go. These cables provide lower loss rates than standard 62.5/125 fibre. Perfect for use with today's narrower aperture components, these cables are fully compatible for Multimode applications. Perfect for protocols such as Ethernet, Fibre Channel, Infiniband, ATM and Internet Protocol.

- Fully compatible with Multimode fibre applications
- A cost-effective solution that provides lower loss and higher bandwidth supporting longer distances
- Perfect for use in Gigabit Ethernet applications
- Lifetime warranty against defects of materials and workmanship
- Buffer material: PVC
- Buffer OD: 900 µm
- Jacket material: PVC (OFNR-rated)
- Jacket OD: 3.0 mm
- Jacket colour: Orange

- Attenuation @850 nm: 3.75 dB/km
- Attenuation @1310 nm: 1.5 dB/km
- Min. bandwidth @850 nm: 160 kHz/km
- Min. bandwidth @1310 nm: 500 kHz/km
- Maximum tensile load: 100 N/cm

Duplex 9/125 Single-Mode Fibre Patch Cables

For your high speed Single-Mode fibre applications

Get the performance you demand at an affordable price with 9/125 Single-Mode Fibre Patch Cables from Cables To Go. Perfect for high bandwidth applications requiring high transmission rates over longer distances. These cables provide cost-effective solutions for use with today's high speed networks and flexibility to grow with tomorrow's higher bandwidth requirements.

- Cost-effective solution providing higher bandwidth and supporting longer distances
- Perfect for use in Gigabit Ethernet applications
- Flexibility to grow with tomorrows higher bandwidth needs
- Lifetime warranty against defects of materials and workmanship

Cat6 550MHz Snagless Patch Cables

550MHz high bandwidth network cable with a snagless design

More room for your information to travel at faster speeds. Designed to handle the high bandwidth needs of transferring video, sound and data, Cat6 is the next generation of network cables. The moulded, snagless boot prevents unwanted cable snags during installation and provides strain-relief. A perfect replacement for your Cat5E cable when it no longer is able to meet system requirements. Cat6 550 Mhz Snagless Patch Cables from Cables To Go are available in a variety of colours to easily colour-code your network installation.

- Connector: 50-micron gold plated RJ-45 Male to Male
- Conductor: 24AWG Stranded Copper
- Jacket: PVC

- Gigabit 1000 BASE-T; 100 BASE-T; 10 BASE-T (IEEE 802.3)
- 4/16 Mbps Token Ring (IEEE 802.5); 100 VG-AnyLAN
- 100 Mbps TP-PMD (ANSI X3T9.5); 55/155 Mbps ATM

Cat6 Snagless Crossover Patch Cables

Unparalleled performance for peer-to-peer and crossover applications

Cat6 Crossover Cables from Cables To Go are perfect for distributing data, voice, video and connecting network switches and hubs without an uplink port to other switches and hubs. 550MHz rated patch cables ensure that you always have the necessary throughput to handle bandwidth-intensive applications.

Note: These cables are for 10/100 Ethernet only and will not work for gigabit ethernet as only two pairs of this cable are crossed. Our new moulded, snag-free clip prevents unwanted cable snags during installation and doesn't impair the ability to insert and remove the connector from the port. It also provides extraordinary strain-relief, so that the cable is not damaged.

- Moulded, snag-free boot prevents cable snags while providing easy insertion and extraction from network ports
- Crossed pin configuration allows you to connect two computers peer-to-peer without the need for a hub or switch
- Each cable is fully tested and quality inspected, ensuring all EIA/TIA Cat6 TIA/EIA-568-B-2.1

- Drastically reduces both impedance and structural return loss (SRL) as compared to standard 100Mhz wire, which ensures error-free transmission
- Constructed with high quality cable and a shortened body plug, this design will keep Near-End Crosstalk (NEXT) levels to a minimum
- Connector: 50-micron gold plated RJ-45 Male to Male
- Conductor: 24AWG Stranded Copper
- Jacket: PVC

Cat5E 350MHz Snagless Patch Cables

Snagless moulded patch cables for high performance networking applications

Enhanced Cat5E 350MHz Snagless Patch Cables from Cables To Go distribute data, voice and video. These cables handle bandwidth intensive applications up to 350MHz and meet all Cat5E TIA/EIA standards. The moulded, snag-free boot prevents unwanted cable snags during installation and provides extra strain-relief. Cables To Go 350MHz snagless patch cables are available in a variety of colours to easily colour-code your network installation.

- Designed for: Network adapters, hubs, switches, routers, DSL/cable modems, patch panels and other twisted-pair applications
- Exceeds Category 5E specifications
- Constructed with high quality wire and a shortened body plug, this cable keeps Near-End Crosstalk (NEXT) levels to a minimum and drastically reduces both impedance and structural return loss (SRL)
- Moulded, snag-free boot prevents unwanted cable snags

- Connector: 50-micron gold plated RJ-45 Male to Male

Cat5E 350MHz Assembled Patch Cables

High performance networking cables that distributes data, voice and video

Perfect for your home office or a large installation project, Enhanced Cat5E 350MHz Assembled Patch Cables from Cables To Go distribute data, voice and video over advanced Ethernet and Gigabit computer networks. These cables will handle bandwidth intensive applications up to 350MHz and beyond. Cables To Go 350MHz patch cables are available in a variety of colours to easily colour-code your network installation.

- Designed for Network adapters, hubs, switches, routers, DSL/cable modems, patch panels and other twisted-pair applications
- Constructed with high quality cable and a shortened body plug, this design will keep Near-End Crosstalk (NEXT) levels to a minimum

Cat5E Crossover Patch Cables

For hub-to-hub or peer-to-peer networking applications

With a Cables To Go Enhanced Cat5 350MHz Crossover Patch Cable and a network adapter, you can easily network two Windows-based computers in a peer-to-peer networking configuration. In addition, this cable can be used for hub-to-hub, transceiver-to-transceiver or repeater-to-repeater Ethernet connections. Cables To Go 350MHz crossover patch cables are available in a variety of colours to easily colour-code your network installation and are labelled as crossover for easy identification.

- Designed for: Peer-to-peer, hub-to-hub, transceiver-to-transceiver or repeater-to-repeater Ethernet connection
- Constructed with high quality cable and a shortened body plug, this design will keep Near-End Crosstalk (NEXT) levels to a minimum
- Exceeds Category 5E specifications and drastically reduces both impedance and structural return loss (SRL)

NETWORKING SOLUTIONS

Cat6 Bulk UTP Solid PVC Cables

Cat6 bulk cable is ideal for Gigabit Ethernet, broadband, audio/video and security network installations

Whether you are wiring your home, office or an entire campus, we have the bulk cable you need to get the job done. Available in a PVC jacket, our cable is offered

88034

Cat6 Bulk 550MHz Solid PVC Cables

Cat6 550MHz bulk cable is ideal for Gigabit Ethernet, broadband, audio/video and security network installations

Whether you are wiring your home, office or an entire campus, we have the bulk cable you need to get the job done. Available in a PVC jacket, our cable is offered in two standard colors, blue and grey, for easy identification.

- 4-pair unshielded twisted-pair cable
- Polyethylene separator for enhanced NEXT, ELFEXT and RL Bandwidth
- 24AWG solid bare copper conductor for superior conductivity
- Meets EIA/TIA CAT6 specifications
- Durable, high-density polyethylene insulation, PVC jacket

Modular Adapters

For serial printers, terminals, modems, POS and other serial equipment

Using Modular Adapters with inexpensive silver satin or flat oval twisted-pair wire has become a popular way to run client server applications. Many network planners have implemented modular adapters as the most cost-effective way to complete connections. Whether used in a wiring closet or throughout the office, colour-coded modular adapters from Cables To Go lend easy identification and differentiation to your cable plan. By colour-coding your connections, you cut down on troubleshooting time while taking full advantage of the benefits of this modular adapter approach.

- Cables To Go will assemble any adapter (for a nominal labour charge) to fit your application so that the adapters are ready to use upon arrival
- These modular adapters are not functional until they are assembled
- There is not a universal way to assemble them, so contact your hardware manufacturer for details

81544

Item#	Description
81544	RJ45/DB9 F Modular Adapter - Grey
81545	RJ45/DB9 F Modular Adapter - Blue
81546	RJ45/DB9 F Modular Adapter - Black
81547	RJ45/DB9 F Modular Adapter - Red
81548	RJ45/DB9 M Modular Adapter - Grey
81549	RJ45/DB9 M Modular Adapter - Blue
81550	RJ45/DB9 M Modular Adapter - Black
81551	RJ45/DB9 M Modular Adapter - Red
81536	RJ45/DB15 M Modular Adapter - Grey
81537	RJ45/DB15 F Modular Adapter - Grey

Item#	Description
81538	RJ45/DB25 F Modular Adapter - Grey
81539	RJ45/DB25 F Modular Adapter - Blue
81540	RJ45/DB25 F Modular Adapter - Black
81541	RJ45/DB25 M Modular Adapter - Grey
81542	RJ45/DB25 M Modular Adapter - Blue
81543	RJ45/DB25 M Modular Adapter - Black
81534	RJ12/DB9 F Modular Adapter - Grey
81535	RJ12/DB9 M Modular Adapter - Grey
81533	RJ12/DB25 M Modular Adapter - Beige
81554	RJ45 10-pin/DB9 F Modular Adapter - Grey
81555	RJ45 10-pin/DB9 M Modular Adapter - Grey
81552	RJ45 10-pin/DB25 F Modular Adapter - Grey
81553	RJ45 10-pin/DB25 M Modular Adapter - Grey
