

The 150Mbps Mobile Wireless N Router

TEW-655BR3G (V1.0R)

The 150Mbps Mobile Wireless N Router (model TEW-655BR3G) connects to the Internet either using a traditional hard wired connection or by cutting the cables and connecting with a compatible wireless mobile USB dongle from a 3G* Internet service provider such as AT&T[™], T-Mobile[™], or Verizon[™]**.

Designed for true portability the router has a rechargeable and replaceable 2.5 hour lithium ion battery. Compatible with USB dongles from every mobile provider, this compact router connects to the Internet anywhere there is a 3G* mobile connection.

No installation is required, simply plug the 3G* USB adapter into the router to share a single Internet connection. The latest wireless encryption protects your valuable data. Wi-Fi Protected Setup (WPS) integrates other WPS supported clients at the touch of a button. An on/off switch on the back of the devices saves battery life. For long trips, power the router with TRENDnet's Car Adapter, model TA-CC.

FEATURES

- 1 x 10/100Mbps LAN port
- Works with UMTS/HSPA or EV-DO mobile networks *
- UMTS/HSPA, WCDMA (HSDPA), CDMA2000 (EV-DO) & TD-SCDMA
- High-speed data rates up to 150Mbps using an IEEE 802.11n connection**
- Built-in antennas provide high-speed performance and expansive wireless coverage
- Multiple SSID with wireless or wired/wireless clients isolation support
- Advanced Firewall protection with Network Address Translation (NAT) and Stateful Packet Inspection (SPI)
- Access restriction with Internet Access Control; URL and MAC filtering
- Built in pre-configured virtual servers and Application Level Gateway services for special Internet applications
- Universal Plug and Play (UPnP) for auto discovery and support for device configuration of Internet applications
- Easy setup via Web browser using the latest versions of Internet Explorer, FireFox, Netscape, Safari and Chrome
- One touch wireless security setup using the Wi-Fi Protected Setup (WPS) button
- Complete wireless security with WPA/WPA2, WPA-PSK/WPA2-PSK, and WEP
- Works with Windows, Linux and Mac operating systems
- 3-year limited warranty

*Go to www.trendnet.com for a list of compatible 3G/4G USB adapters

**Must have an active Internet plan with the respective third party mobile provider

**Maximum wireless signal rates are referenced from IEEE 802.11 theoretical specifications. Actual data throughput and coverage will vary depending on interference, network traffic, building materials and other conditions.
