Description

The U457-1M2-SATAG2 USB 3.1 Gen 2 USB-C to M.2 NGFF SATA SSD (B-Key) Enclosure Adapter lets you connect a high-performance M.2 NGFF SATA SSD (B-Key) drive to a computer or laptop with a USB-C or Thunderbolt™ 3 port. To share data, just remove the adapter's cover using the included screwdriver, connect the drive to the M.2 NGFF connector, secure it with the included screws, put the cover back, and connect the adapter to your computer's USB-C or Thunderbolt™ 3 port using the included cable. The U457-1M2-SATAG2 supports 2230, 2242, 2260 and 2280 M.2 SATA SSD drive types.
