

SOHO, Home & AV Cabling

AV Connection Outlet

The Connectix AV Outlet has been designed as a convenient, fixed connection point for AV equipment installed in hard to reach locations, such as ceiling mounted projectors.

SVGA and Phono leads can be connected to the projector, then run through mini trunking to the outlet and simply plugged in to the internal connectors.

The sleek low profile unit is ideal for use in meeting rooms, classrooms and board rooms. Custom colours are available upon request, and the custom logo printing service is also available on this product.

Features & Benefits

- Convenient termination point for AV connectors
- Internal sockets for easy installation
- SVGA, composite video and audio connectors
- Mini trunking entry point
- Sleek low profile design
- Custom colours available upon request
- Custom logo service available
