

Ergotron® 400 Series

for vertical surfaces

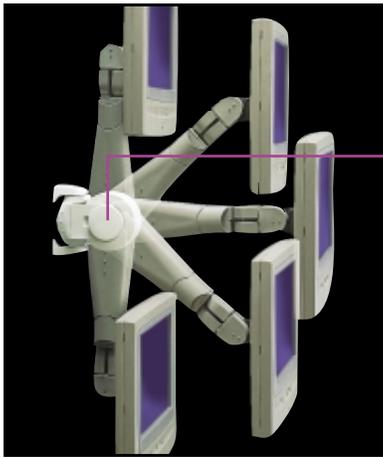

Highlights

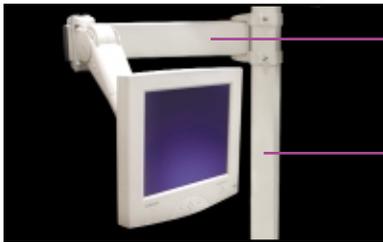

- Easily position the height and angle of the monitor for maximum comfort and productivity
- Up to five points of rotation for maximum adjustability
- Patented friction system provides smooth adjustment while maintaining touch screen stability without the need for knobs or levers
- Space saving ability to move monitor out of the way when not in use
- Internal steel construction ensures long-lasting durability
- Sleek, durable, easy-to-clean plastic exterior
- Internal cable management conceals and routes cables
- VESA® Flat Display Mounting Interface (FDMI™) Standard compliant for easy monitor attachment
- 5-year warranty

Ergotron's patented 400 Series Arms allow users to lift, swing, and tilt flat panel monitors, laptops, and keyboards for maximum efficiency. With up to 24" of vertical adjustability, Ergotron's broadest height range, you can easily adjust from a standing to a sitting position or anywhere in between. 400 Arms are extremely stable throughout their entire range of motion. 400 Series Arms also allow you to move components out of the way when not in use, which is an essential feature in areas where space is at a premium.

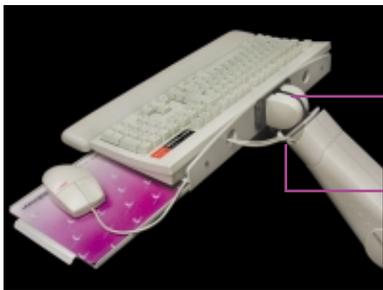

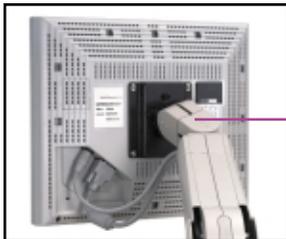

All 400 Series Arms for vertical surfaces feature 180° of vertical adjustment.

Extend monitors out up to 48" with extender option.
Command Post.

Keyboard/Laptop Pivot Arm.
Internal cable management system provides clean and organized installation.

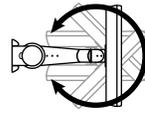

Pivot mechanism allows you to position monitor where you need it.

Range of Motion for Monitor Pivot:

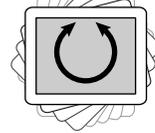

All pivots allow 180° of up/down monitor tilt. Choose a double pivot with P/L for 180° of side-to-side monitor tilt and portrait/landscape for 360° of rotation.
