

TV Bracket

Portable HDD Mounting Kit

BUFFALO™

OP-HDP-TVK2

Keep your TV or Desktop clutter free

Buffalo Technology brings its first mount kit for portable 2.5" HDD's on a TV. This TV bracket with a simple yet efficient design fits all TVs that have VESA mount. Put your portable HDD nicely hidden behind your TV.

It's perfect for play back multimedia files or even recording TV directly. The TV bracket works with most 2.5" portable hard drives in the market and of course is 100% compatible with our Buffalo's MiniStations thanks to the transform function. The tool-free design means that you can mount this kit within seconds. The adjustable docking depth makes it possible to turn the TV Bracket into a double-decker, for up to 2 MiniStations. The scratch-free foam and rubber inside protect your MiniStation and TV from scratches. If the USB cable is too short: no issue. The TV mount kit comes with an 80cm USB2/3 extension cable.

With the Portable HDD Mounting Kit, your portable drives are hidden away, and stored safely behind the back of the TV. Free up your working and living space of unnecessary desk clutter with this simple and easy to mount kit.

OP-HDP-TVK2

Features and Benefits

- Clutter-free design around TV
