

Features & Benefits

- Individually performance tested
- Enhanced Category 5 performance
- Uses fully shielded cable
- Available from stock in lengths from 0.5 to 5 metres
- Available with blue, red, yellow or green latches
- Offers enhanced security

Specifications

Plug	High performance 50 um gold plated
Cable	Enhanced Category 5 shielded cable
Cable Shield	Overall braid and individually foiled pairs
Conforms to	EIA/TIA-568-C Enhanced Category 5
Boot & Secure Lock	Polycarbonate
Key	Polycarbonate

Boot Removal Key	006-003-007-90
------------------	----------------

The Patchlock leads from Connectix provide extra security when installed in public areas as they prevent the risk of unauthorised disconnection of critical network connections. A Removal Key must be used to release the secure lock thus allowing the patch lead to be removed.

The Connectix Enhanced Category 5 FTP Patch Leads are designed to exceed the performance requirements of the Enhanced Category 5 Specification. The fully shielded patch leads increase signal isolation and prevent contaminant noise from entering the cabling system.

Connectix Patch Leads are made from Enhanced Category 5 shielded cable and are terminated using high performance modular plugs. Each lead is individually factory tested to the standard to ensure true standard compatibility.

Leads are available in lengths from 0.5 to 5 metres, and in several different colours.
